Software engineering is my passion. I love good UI/UX, typography, and great documentation. I'm eagle-eyed to details and an open-source enthusiast. Over the past year, I have been living in Tallinn where I work as a Front-End Software Engineer with over 6 years of experience. I enjoy meeting people, hacking my car, and hanging out with my cat.

Front-End Software Engineer @ Wolt

Front-End Software Engineer @ Kitman Labs

Dublin, Ireland | Apr '23–Oct '25 · 2 yrs 7 mos

- reduced Sentry spendings by 29% by optimizing errors reporting and removing redundant monitoring;
- modified the proxy config to enable connections between local environment and staging or production, cutting CircleCI costs by 17% and decreasing average debug time from 3 hours to 20 minutes;
- authored an ESLint rule to enforce object styles;
- designed and implemented advanced multi-level, per-tab-per-user logic to open the last known page on user sign-in for our hybrid SPA/MPA setup securing customer retention of 45 key clients.
